REHNA 19217
GERMANY

E-mail: ul@awek-protech.de

Our Reference: File E341257 Project No: 10CA45143
Subject: Notice of Completion of the Engineering Investigation and Requirement for an Initial Production Inspection (IPI)

Dear MR. DIRK DONGES:

Any information and documentation involving UL Mark services are provided on behalf of Underwriters Laboratories Inc. (UL) or any authorized licensee of UL.

The engineering investigation under the above project number has been completed. This letter does not authorize use of the UL Mark on the products under the above project number.

Before you may begin shipping product with the UL Mark at the manufacturing location listed below, an Initial Production Inspection (IPI) must be successfully performed by a UL representative at the manufacturing location:

AWEK PROTECH GMBH
AM KAJATZ 7, REHNA 19217, GERMANY

The IPI is intended to confirm that the manufacturer is capable of producing a product in accordance with UL's requirements. **THE MANUFACTURER MAY NOT SHIP PRODUCTS WITH THE UL MARK UNTIL THE IPI HAS BEEN COMPLETED AND UL HAS FOUND THE PRODUCTS AT THE FACTORY TO COMPLY WITH OUR REQUIREMENTS.** Once this has been successfully completed the manufacturer will be granted authorization to ship products bearing the UL Listing or Recognized Mark.

It is the responsibility of AWEK PROTECH GMBH, the Applicant, to inform its manufacturers of that the IPI must be successfully completed before product may be shipped with the UL Mark. Instructions for the IPI will be sent to our inspection center nearest to each of your manufacturing locations. The contact information of the inspection center is provided at the end of this letter. Please contact the inspection center to schedule the IPI and ask any questions you may have regarding the IPI.

Within Canada, there are federal and local statutes and regulations, such as the Consumer Packaging and Labeling Act, requiring the use of bilingual product markings on products intended for the Canadian market. It is the responsibility of the manufacturer (or distributor) to comply with this law. The UL Follow-Up Service Procedures will only include the English versions of the markings

In any correspondence concerning this investigation, please refer to the above file and project number.

Sincerely,
